

Office of Water (OW)

Organized into four large Offices and three small Offices:

- **- Ground Water and Drinking Water**
- **- Wetlands, Oceans and Watersheds**
- **- Science and Technology**
- **- Wastewater Management**
- **- Gulf of Mexico Program**
- **- American Indian Environmental Office**
- **- Immediate Office**

Ground Water and Drinking Water

This Office is responsible for ensuring the availability of safe drinking water in the US.

Major activities include:

- Examining and regulating maximum levels of contaminants in drinking water**
- Maintenance of the Safe Drinking Water Information System**
- Drinking Water State Revolving Fund**

Wetlands, Oceans and Watersheds

This Office monitors our nation's water bodies using a watershed approach. Major activities include:

- Total Maximum Daily Load Regulations**
- Ocean Dumping and Coastal Protection**

Science and Technology

This Office provides coordination and leadership of science policy and studies within OW. Major activities include:

- Effluent Guidelines**
- Water Quality Standards**
- Laboratory Analysis**

Wastewater Management

**This office regulates industrial discharges and sewage treatment.
Major activities include**

- National Pollutant Discharge Elimination System**
- Clean Water State Revolving Fund**

Contract Volume

Together these four Offices have over 54 active contracts valued at over \$540M. 15 contracts are with small/small disadvantaged businesses valued at \$74M.

Each year OW spends between \$60-\$70M on contract activity
